SUMMARY

I am a results driven Full Stack Developer with over 4 years of experience building scalable, responsive, and user focused web applications. I specialize in HTML, CSS, JavaScript, PHP, Node.js, React, WordPress, MySQL, and API integration, with strong skills in system optimization, application security, and problem solving. Passionate about innovation and continuous learning, I enjoy creating efficient digital solutions that improve user experience and business performance.

PROFESSIONAL EXPERIENCE

Web Expert
Buuka Mart Technologies, Hybrid

04/2024 – 02/2026
Abuja, Nigeria

As a Web Expert, I was responsible for designing, developing, and maintaining high performance, responsive, and scalable websites and web applications. I collaborate with teams and clients to transform requirements into functional and visually engaging web platforms, integrating APIs, improving system workflows, and enhancing overall user experience. My role also includes troubleshooting technical issues, optimizing website speed, implementing security best practices, and providing reliable IT support to ensure seamless platform performance.

Front End Developer
Mixerstech, Remote

05/2022 – Present
Abuja, Nigeria

I specialize in building responsive, user-friendly, and visually engaging web interfaces that align with modern design standards and business goals. I work closely with designers and backend developers to translate concepts into functional, high-performance web applications using HTML, CSS, JavaScript, React and modern frameworks. I focus on creating seamless user experiences, optimizing website performance across devices, and ensuring clean, maintainable code. I also contribute to UI/UX improvements, debug and resolve interface issues, and implement interactive features that enhance usability and engagement.

Protocol Assistant
Nigeria football federation (NYSC)

04/2021 – 04/2022
Abuja, Nigeria

Provided technical and IT support, ensuring smooth system operations and timely resolution of user issues. Assisted in drafting applications and recovering lost or deleted files to support data integrity and continuity. Managed document organization and filing systems to maintain accurate and easily accessible records. Coordinated and scheduled appointments efficiently, supporting smooth administrative and operational workflows.

IT Personnel
HillyRealtor & Consultancy

06/2020 – 08/2022
Abuja, Nigeria

I provided comprehensive technical support for hardware, software, and network systems, ensuring optimal performance and reliability across IT infrastructure. Installed, configured, and maintained IT systems while promptly diagnosing and resolving technical issues to minimize downtime. Implemented security best practices to safeguard systems and data integrity. Consistently supported end users by troubleshooting problems and delivering effective solutions to ensure smooth and efficient daily operations

EDUCATION

Human Kinectics & Health
Kogi State University
